

npower texas

Launched in April 2013, NPower Texas is located within the Bill J. Priest Small Business Innovation Center and provides tuition-free technology training and certifications to veterans, reservists, and their spouses, offering an alternative fast-track to tech jobs with employers committed to hiring diverse IT talent.

WHO WE SERVE

100%
VETERANS, RESERVISTS,
AND VETERAN SPOUSES

**based on 2017-2018 national data*

NPower Texas is located in one of the fastest-growing digital hubs in the U.S. and home to the fifth-largest tech labor force. Despite this opportunity, 400K+ veterans and their spouses living in the Dallas-Fort Worth metro area are underemployed and challenged to adapt to the specialized workforce.

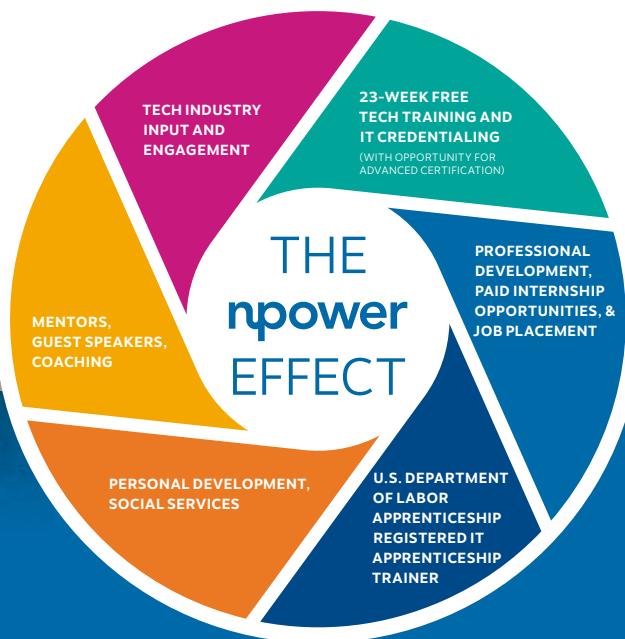

OUR PROGRAMS

Our Texas program provides tuition-FREE technology training and certifications to veterans, reservists, and their spouses, offering an alternative fast-track to tech jobs with employers committed to hiring diverse IT talent.

CHRIS YOUNG

Account Manager, *World Wide Technology, Inc.*

"I was unsure where my career was headed and changed jobs a few times trying to find my path. My time at NPower has made me realize that this is the career I want to pursue. Thanks to NPower, I can now provide a better life for my son and the future is no longer uncertain."

"The NPower Interns I have worked with use their skills learned through the program and have a strong desire for knowledge. They become ideal candidates for companies looking to employ some of the brightest resources on the market."
